F. H. HORSFORD NURSERY-INC. CHARLOTTE, VERMONT 05445

Pretty soon now we'll be starting up the wood stove in the nursery office and firing up our greenhouse boiler because the 1966 growing season is approaching rapidly.

We're looking forward to welcoming you this season either at the nursery in Charlotte or at the Green Tree Garden Center in South Burlington. If you can't make it to see personally what we have to offer you this year, here is our 1966 Catalog.

We've tried to make this new catalog the easiest to read and work with in our 73-year history. Look it over—there is something in it for you.

Last year undoubtedly was one of the toughest on record for gardening success in Vermont. Nearly four years of drought was culminated in May with barely one-half inch

The packing house and office—just off route U.S. 7 in Charlotte.

of rain—when it was needed the most. That coupled with a rare open winter with no snow cover made it unusually severe, especially when you consider that with a snow cover the temperature can be 20 below zero above ground but the soil temperature a foot or so down is nearly 55 degrees warmer. Robbed of that snow protection many Vermonters last year lost shrubs, evergreens, and perennials. Happily, in August, rains came and as this is written climatic conditions are more normal. The 1966 season looks promising.

So, if you postponed any planting last year or want to replace winter-lost plants why not start planning now and let our experienced staff help you? F. H. Horsford Nursery, Vermont's oldest, features nursery stock grown in Vermont, by Vermonters, for Vermonters . . . or would-be Vermonters.

Perhaps you have been considering a landscaping plan for your home. Nothing increases the value of your property more —shrubs and trees increase in value every year. And did you know that landscaping can be financed through your local

bank with an FHA loan? Not only can our competent staff consult with you but you can select your own stock at the nursery and our experienced crew will plant it for you.

This year at the nursery we will start work on several new projects. Because our soil is ideal for growing lilacs we will be propagating our own stock so that in the future we will be featuring lilacs more prominently. We are also designing our own display garden to include a majority of the many varieties listed in this catalog. Overlooking this garden we plan a covered terrace where our drop-in customers can relax, sip some coffee, and enjoy the surroundings while their orders are being packed.

Because this catalog includes our complete listing we will not publish our usual fall supplement. Nevertheless, along in August you will get a little reminder from us mentioning a few specials on those varieties best planted in Autumn.

Shown on the left is our General Manager, Stan Wollaston, inspecting some Chrysanthemums with Field Superintendant, Leon Theoret, a staff member for 20 years.

And finally we should tell you that Lois Horsford Arkley, after many long years with the nursery, has retired. She and her husband now live in Waterbury where Lois this year will start enjoying her well deserved retirement years. When Spring comes, knowing Lois, we are sure she will be busy in her own new garden. As the new owners of the nursery we wish her well and much happiness.

Sallie + Gardner Soule

P.S. Your comments and suggestions are always welcome—please feel free to write us anytime.

PEONIES, IRIS AND THE CLASSIC MADONNA LILY APPEAR ON PAGE 12

#### HORSFORD'S LILIES

L-701 AURELIAN HYBRIDS. Golden Sunburst Strain. Star-shaped flowers, goldyellow. Petals, very slightly recurved. Graceful sprays 5 to 8 ft. 7-8 in. bulbs. August to September. \$1.25 each.

L-702 BRIGHT STAR. Sunburst type. Silver-white petals shine in contrast to an orange star in center of the flower. 4-6 ft. July. \$1 each.

L-704 CANDIDUM, MADONNA LILY. This exquisite wax-white cascade requires fall planting. See page 12.

L-705 GREEN MOUNTAIN HYBRIDS. Large trumpets of white with yellow or green coloring in the throats. 3-5 ft. high with a three- to four-week flowering season in mid-summer. \$1.25 each, 3 for \$3.50.

L-706 HARLEQUIN HYBRIDS. New Strain. Colors vary through ivory-white, pale lilac, old rose, violet, salmon, amberpink. 4 in. diameter. Turk's cap. June-July. \$1.00 each.

L-707 HENRYI. Heights will vary with soil and growing conditions, but we've honestly seen this Lily 9 ft. high. Easy to grow, too. Graceful sprays of brilliant apricot yellow. August, September. 75c each.

L-709 PRIDE OF CHARLOTTE. This stately offspring of *L. sargentiae* is more rugged than its parent. Long, white funnel-shaped flowers with yellow throat and sometimes marked externally a deep reddish brown. 3 to 4 ft. July. \$1.00 each.

FAVORITE HYBRIDS, CLASSIC SPECIES

L-710 REGALE. A truly Regal beauty,

L-710 REGALE. A truly Regal beauty, and the best behaved queen of the lot. Parade her before a royal curtain of Delphinium to show off her best advantage. White, slightly suffused with pink, shading to beautiful shade of canary yellow at the throat July. Large bulbs 85c each, 3 for \$2.25.

L-711 ROYAL GOLD. Golden Regal. This beautiful flower is identical with the best regal except for its glistening quality and its golden color. July. 3-5 ft. 8-9 in. bulbs. \$1.10 each, 3 for \$3.00.

L-712 SPECIOSUM RED CHAMPION. Delicate pink with deep crimson dots. Oregon grown and disease free stock. July-August. \$1.75 each, 3 for \$4.75.

L-713 SPECIOSUM WHITE CHAMPION. A variety from the favorite "rubrum lily" but crystal white. July-August. \$1.25 each, 3 for \$3.50.

L-714 SUPERBUM. America's handsomest native Lily, in our opinion, with its immense, pyramidal cluster of blooms right up high where you can admire them. Brilliant orange-red shading to yellow and spotted brown. July. 3 to 6 ft. 75c each, 3 for \$1.95.

L-715 TENUIFOLIUM (*Pumilum*). A small slender Lily, bright coral flowers and recurved petals. As dainty a Lily as is in cultivation. 12-18 in. June. 50c each, 3 for \$1.25.

CULTURAL DIRECTIONS ARE SENT WITH EACH ORDER

## **EASY-TO-GROW FERNS**

India to oko w tilkito	
FOR DRY, SHADY PLACES Under trees, in the shade of buildings where the soil is too dry for blooming plants, these Ferns may adapt themselves or if not all, some may. Dry shade is one of the gardener's hardest problems.	F-814 9 Aspidium marginale, 1½-2 ft. F-802 9 Dicksonia punctilobula, 1-2 ft. F-800 9 Osmunda claytonia, 2-3 ft. F-812 9 Polystichum acrostichoides, 1 ft. 36 Ferns for \$10.00
FOR THE OPEN BORDER  Mostly tall Ferns with bold, broad foliage, and imposing appearance. They are adapted to sunshine but need the shelter of adjacent plants about the base of the fronds. Plant them in mixed groups among low shrubs.	F-800 6 Osmunda claytoniana, 2-3 ft. F-801 6 Onoclea struthiopteris, 3-4 ft. F-802 18 Dicksonia punctilobula, 1-2 ft. F-803 6 Asplenium felix-foemina, 1-3 ft.  36 Ferns for \$10.00
FOR MOIST, SHADY PLACES  The wealth of plants which will flourish in moist, shady places is embarrassing. Ferns are no exception. Choose those of relatively low stature, among which to mingle blooming plants such as bog orchids.	F-810 6 Adiantum pedatum, 1-1½ ft. F-811 6 Aspidium cristatum, 1 ft. F-812 6 Polystichum acrostichoides, 1 ft. F-813 6 Aspidium spinulosum, 1½-2 ft. F-814 6 Aspidium marginale, 1½-2 ft. F-815 6 Asplenium acrostichoides, 3 ft. F-803 6 Asplenium felix-foemina, 1-3 ft. F-816 6 Phegopteris hexagonoptera, 1 ft. F-817 6 Asplenium angustifolium, 2-3 ft.  54 Ferns for \$16.00
FOR WET, OPEN GROUND  No trouble at all to find ordinary plants for wet, open ground but not many Ferns are adapted to the sunshine. Use rushes or flowering plants freely in such situations.	F-804 12 Onoclea sensibilis, 1 ft. F-805 12 Osmunda regalis, 2-3 ft.  24 Ferns for \$6.50

Any of the above Ferns 40c each, 6 for \$2.00, \$4.00 per doz.

WHY NOT LANDSCAPE THE FAMILY CEMETERY PLOT? - A LIVING TREE IS ALWAYS A FITTING MEMORIAL.

# VINES, TRAILERS and GROUND COVER

	STK. NO.	VARIETY	COMMON NAME	CULTURE—COLOR	REMARKS		PRICE EACH
	V-200	Ampelopsis quinguefolia	American Woodbine Virginia Creeper	Twines, loose and open foliage	Dark green in summer, crimson in fall. Covers trellis or walls quickly	\$ 7.50 per 10	\$ .80
	V-201	Ampelopsis engelmanni	Engleman Ivy	Clean, closer foliage, har- dier than Boston Ivy	Refined form of creeper, will cling to brick, stone or cement	2 year \$ 7.50 per 10	.80
	V-202	Ampelopsis tricuspidata	Boston Ivy	Better in warmer protect- ed exposure	Clings flatly to walls. Grows quickly	2 year	1.25
	V-203	Ajuga reptans	Bugle Plant	Partial or full shade. Grows under adverse conditions	Useful in rock gardens or where grass won't grow	\$ 3.50 per 10	.40
	V-204	Celastrus scandens	American Bittersweet	Sun or part shade	Vigorous twiner, fine for stone wall cover or stone heap	2 year	1.15
	V-205	Clematis paniculata	Japanese Clematis	Strong, climbing vine. Needs sun	Very handsome, fragrant white flowers	2 year	1.25
	V-206	C. Countess Bouchard		Large flowering pink		2 year	1.75
	V-207	C. Fairy Queen		Large flowering white		2 year	1.75
	V-208	C. Jackmanni		Full sun; neutral or alka- line soil	Violet-purple, 5-7" flowers. Most desirable	2 year	1.75
	V-209	C. Crimson Star		Crimson		2 year	1.75
	V-210	Euonymus fortunei colorata	Winter Creeper	Easy culture. Foliage pur- ple thru fall and winter	Clings to walls, rocks or trees. Rapid grower	3 year	1.25
10	V-211	E. radicans vegeta	Evergreen Wintercreeper	Red-berried, shiny leaves	A semi-shrub, quick rooting	3 year	2.50
	V-212	Lonicera heckrotti	Honeysuckle	Adaptable culture, fast growing	Flame colored, yellow- lined	2 year	1.25
	V-213	Pachysandra	Japanese Spurge	Shade, thrives with little care	Evergreen spreader, good on thin soil in tree shade	\$ 3.50 per 10	.40
	V-214	Polygonum auberti	Chinese or Silver Fleece Vine	Fast growing, even in adverse conditions	Mass of white and fleece- like flowers. Foliage is bronze, then green	2 year	1.75
	V-215	Vinca minor caerulea	Myrtle	Shade or partial shade	Violet-blue flowers. Shin- ing leaves, that are prac- tically evergreen	\$ 3.50 per 10 25.00 per 100	.40
	V-216	Wisteria chinensis	Wisteria	Slow to bloom	Once started, grows luxuriantly with panicles of orchid-pink	2 year	1.75

#### GLORIOUS PEONIES . . . BEST PLANTED IN AUTUMN

No other plant can give such masses of brilliant green and such smashes of white, pinks, and reds — and all for very little care. Full, yet simple planting instructions sent with every shipment.

	SINGLE PEONIES			NAME	COLOR	SEASON	PRICE
Albert Crousse Avalanche Auguste Dessert Clemenceau	COLOR Shell pink Creamy white Rose-red, silver edge Deep rose	Late Late Midseason Med. late	\$1.25 1.25 1.25 1.25	Mme. Emile Lemoine Mons. #### THE MADONNA LILY

(LILUM CANDIDUM)

10"-12" Bulbs, 65c each, 3 for \$1.75

This exquisite waxy white cascade requires early fall planting (August 15-September 15)

Some gardeners worry about the difficulty of growing lilies. True, they do need proper care, but we send concise, complete directions, based on over 70 years' experience, with every shipment and the simple care required is easily understood.

Of course, the number of flowers and the size of plant depends a great deal on the quality of bulb you plant. You will find our bulbs all firm and healthy.

#### OUR WARRANTY

Our plants are hardy in Northern Vermont under congenial cultural conditions, but need protection against winter heaving from alternate freezes and thaws. We are responsible for filling your order with stock true to name and in good condition. If not received in good condition, complaint must be made at once.

We cannot assume responsibility for cultural failures beyond our control nor for failures due to drought and winter losses.

# TERMS: Net 30 days; FOB Charlotte or South Burlington, Vermont

Postal charges are added to your invoice. If you send a check with your order please include postal charges, estimated at 20% of total order for shipment East of the Mississippi River; or 30% of the total order for shipment West of the Mississippi. Minimum postal charge—50c.

Lilacs must be shipped by Express collect unless called for either at the nursery or the GREEN TREE Garden Center. Nominal charge for delivery to homes in the Greater Burlington, Vermont Area.

All stock will be shipped at the appropriate time for planting.

In keeping with the F. H. Horsford reputation for quality we have opened our Green Tree Garden Center in South Burlington. We believe it to be the finest store of its type in Northern New England—one visit will tell you why.

Here is one stop shopping for everything for your lawn and garden . . . where only the best, top quality lines are sold. We feature the famous Scott's line of Turf Builder and lawn seeds. In fact, our manager has been trained in the Scott's school in Marysville, Ohio and is qualified to answer all your questions on lawn care and can recommend the right Scott's product to control weeds and improve your lawn. Remember that Scott's guarantees a greener lawn or your money back.

Here in May and June we sell our wide selection of choice annuals grown in our Charlotte greenhouse. Under the adjoining lath house you will find evergreens in the display beds. Nursery stock ordered here or in Charlotte can be picked up at the garden center although we will be glad to deliver direct to your door for a nominal charge.

All year long, but especially during the off-season, the store sells Pets and Pet supplies. Bring your family—it's like a trip to the Zoo! It is the largest and most complete pet center in Vermont, and our suppliers tell us it's one of the finest in the entire Northeast.

THE GREEN TREE GARDEN & PET CENTER IS OWNED & OPERATED BY F. H. HORSFORD NURSERY, INC.

You will find us down in the hollow just off U.S. 7 in Charlotte, only 15 minutes south of Burlington. You can enter either from U.S. 7 or from North Greenbush Road, which runs north from the center of Charlotte. There are signs at both entrances. Our office and greenhouse are midway between U.S. 7 and North Greenbush Road.

Let us help you with your landscape or garden problems. We suggest you bring with you a photograph of your home or the area to be planted. Our field staff will be glad to assist you at any time, but if you wish to confer with one of our consultants it is best to write or phone ahead so we can be expecting you. Time gets a little precious along about May so we are always glad to arrange a pre-season conference in your home or our winter office at the Green Tree Garden Center. Please contact our General Manager, Stanwood Wollaston, who will be happy to serve you.
